# About Us

Freight Hub Shipping L.L.C was Established in Dubai, United Arab Emirates. The company is vanguard by a thorough professional team with decades of experiences in sales and operations in the freight forwarding industry. The team is well regarded both locally and globally for their knowledge and commitment. The main objective of establishing logistic division of Freight Hub Shipping LLC is to provide a complete freight forwarding services, which is not only limited in collecting materials from ex-warehouse or ex-factory in any part of the world and deliver it to the ultimate destination. The founders saw a place and need for their services in a Fast-paced environment. The market was lacking values and ethics-based organization that could provide crystal clear communication and proactive services with fast-pace. Freight Hub Shipping was established with the aim to fulfil this gap. The organization always had a good team that took ownership of its values and reflected the same in day-to-day actions. Our structural and empathetical approach to onboarding a client and their enquiries has led to a feeling of comfort and safety of being handled by experts.

## Air Freight

Freight Hub Shipping LLC is specialized in providing expedited air freight international services to destinations across the world and it is the most dynamic globally. We are selecting the most appropriate carrier for your shipment giving you an advantage over other freight forwarding companies at affordable rates. Regardless of size and weight, we provide and move the air freight shipments to domestic and international destinations on time and offers customized services like export and import, charter service, hazardous cargo, Perishable shipment, customs brokerage, packing service.

# Sea Freight

It is an important part of globalization and stand as one of the frontrunners in connecting all oceans across the world. We transport full-container-loads (FC), less-than-container-loads (LCL) as well as complete project shipments according to your requirements to the point of destination with tracking system and space protection during periods of high demand. Our FCL and LCL services make shipping across the world simple, reliable, and efficient with our direct regular departures across hundreds of destinations with huge capacity and it's the streamlined and cost-efficient solution that ensures you of the shipment to destination.

# Road Freight

The major advantage of road transport is that it can enable door-to-door delivery and handling, which can provide a very cost-effective means of cartage, loading, and unloading, including border clearance to all over the Middle East. We possess special trailers or containers, extendable semi low-loading trucks, container, tanker, and trailer trucks Less than Truck Load (LTL) and Full Truck Load (FT) services at cost-effective rates for bonded and non-bonded cargo. Comprehensive and long-standing market knowledge of our logistics professionals and modern equipment adapted to your needs at your disposal.

# Project Cargo

Freight Hub offer you optimal project logistics as per customer requirements, operating a full charter service based on the capacity shipment. Our package service includes the handling of heavy goods as well as oversize cargo, critical, construction, oil, energy & gas. This includes the entire transport of machinery, heavy cargo for customers mostly associated with the mining, petrochemical industries, military & defense vehicles. We assure to save time and risks and add real value to your projects by 24/7 service monitoring.

# Special Handling

We handle special cargo globally including origin and destination trucking solutions. Our expert designs provide effective handling of special shipment as per client's requirements like Pharma, -, Live Animals, heavy lifts, dangerous goods and valuables with special care and we do all type of packing and wooden creations to utmost. All our handlers are highly qualified, professional and trained to treat your possessions with an attentiveness that is unique to Freight Hub.

# Custom Clearance

Freight Hub Shipping also offers unparalleled Custom Broking Services to assist you worldwide, import and export, and offer world-class clearing services from UAE. We focus on all the aspects involved in the custom clearance process for import custom clearance and delivery within time frame with reasonable price, covering both Air and Sea. It brings to clients reliable and time-effective assistance for clearing all types of cargoes across multiple locations. The service includes preparation of bill of entry, processing custom clearance, assessment, customs examination and obtaining customs out of charge and arranging dispatch, delivery to the destination on time. Our service includes Carnet , Pharma, live animal, automotive, perishable shipments, etc. To ensure the complete security of your goods, our personnel serve as the first point of contact for both customs authorities and receiving customers. This allows us to apply real-time expert knowledge to all customs matters and minimize the risk of delay. It's all part of our ongoing efforts to make moving your cargo a totally smooth and hassle-free experience.
